

GIS Specialist

Hanley & Bird, Inc., a privately held oil & gas exploration and production company located in Brookville Pennsylvania, is seeking a highly motivated, qualified candidate to fill the position of a GIS/LIS specialist.

Job duties include but are not limited to the following:

Data entry, import, and display of cultural and gas/oil well information into a GIS/LIS based mapping software program. Data includes but is not limited to; cultural and topographical information, CAD property surveys, well plats (locations), and completion records.

Candidate will be responsible for database up-keep/maintenance and will provide database support for the company's ongoing engineering and geological projects.

Other requirements:

Candidate must work closely with other project and company personnel; must have effective verbal and written communication skills; must be able to define and solve problems; must be able to work independently; and must accept responsibility toward meeting deadlines. Candidate must possess basic understanding of mapping GIS or Cad systems. Candidate must have working knowledge of the following software:

Windows XP, Word, Excel, PowerPoint, Access, Explorer, and Adobe Acrobat

Salary will commensurate with experience. Excellent benefit package offered. Interested candidates should mail their resume immediately to:
