

SENIOR PROJECT MANAGER

www.rexenergy.com

Rex Energy is a publically traded independent energy company in the acquisition, production, exploration and development of oil and gas, with properties concentrated in the Appalachian, Illinois and the Permian regions of the United States. We pursue a balanced growth strategy of exploiting our sizable inventory of lower-risk developmental drilling locations, pursuing our higher-potential exploration drilling prospects, and actively seeking to acquire complementary oil and natural gas properties. The company is headquartered in State College, Pennsylvania with offices in Canonsburg, Pennsylvania, Bridgeport, Illinois and Midland, Texas. Rex Energy is traded on the NASDAQ exchange under the ticker symbol REXX.

We are currently seeking a **Senior Project Manager**. The Senior Project Manager will be located in the company's corporate headquarters in State College, Pennsylvania and will report directly to the company's Chief Executive Officer and will work closely with the company's Chief Financial Officer and Chief Operating Officer. The Senior Project Manager will be responsible for direct management and supervision of a major enhanced oil recovery project in the Illinois Basin. The project consists of a tertiary recovery chemical flood in the largest field in the Illinois Basin with original oil in place of approximately 1 Billion Barrels. This position will require frequent time (up to 50%) spent at the project site in Illinois. Additional travel may also be required from time to time to contractor work sites located elsewhere in the US. An onsite field project team will report to this position.

The ideal candidate will have at least 10 years experience in management of oil & gas projects along with a Bachelor's Degree. Degree in Engineering preferred but not required. Previous experience in enhanced oil recovery or tertiary recovery projects preferred.

Responsibilities:

- Manages the pilot and execution phases of the project to ensure safe, timely, and effective execution of the project consistent with project objectives.
- Develops budgeting and staffing plan to achieve project objectives. Organizes and directs activities of company's on-site project team.
- Provides leadership in use of project management practices, including front-end loading and project execution planning.
- Develops cost and schedule estimates as needed for funding requests. Reports progress to appropriate management.
- Develops key working relationship with contractors, suppliers, and their management to align project expectations and gain their support in achieving project expectations.
- Aligns work plans and resource sharing with Field Operational Management team to maintain continuity of project and operational activities.
- Establishes a frequent, visible presence at the work site. Champions incident free operations.

Skills:

- **Project Skills:** Demonstrated knowledge and application of project management practices and principles.
- **Project Management Expertise:** Major project expertise within the oil & gas industry particularly related to secondary & EOR project design, construction, and execution.
- **Operational Assurance:** Demonstrated knowledge of operations assurance processes (equipment reliability, equipment acceptance procedures, equipment commissioning and start-up).
- **Leadership:** Ability to gain alignment within a matrix type of organization and effectively engage project team members working in multiple locations.
- **Communication:** Able to concisely and effectively communicate across all levels of the organization. Demonstrated ability to use project management tools (e.g. MS Project).
- **Safety:** Experience in developing & managing a strong company/contractor safety program.

Our success is the result of our seasoned and diversified employee base, comprising expert personnel who use the latest technologies and apply sound business practices. We have grown by challenging our employees to be innovative and creative, and by providing them with the necessary tools. Our employees are rewarded for their hard work and success.

This position is a senior management level position in the company. Rex Energy Corporation will provide a competitive compensation & benefits package including equity incentives for the right individual. Relocation assistance is available. To apply please submit a cover letter and resume to Bill Cowan, Human Resources Manager at jobs@rexenergycorp.com EOE.
